

Glomex Newsletter - 03.2009 you are never alone on the water

:: GLOMEX POINT OF VIEW ::

At the **Genoa Boat Show** we saw lights and shadows, shadows and lights. Certainly a return to the past for the Italian marine industry will not be around the corner or as they call our American friends: **"is not like to eat a piece of cake"**.

**See you in Amsterdam at METS.
Piero Baldassarri**

In this issue:

- **New satellite antenna**
Glomex presents **URANIA**, the new compact satellite antenna.
- **Focus ON:** From 10th October, online the new **Glomex website**
- **Amsterdam, METS 2009**
Glomex will be at the **Marine Equipment Trade Show Stand 01.213 - Europe Hall - Hall 1**

URANIA: THE NEW COMPACT SATELLITE TV ANTENNA

Dedicated to the boat indicated on the pink area of footprint chart, the Urania is the ideal choice. Compact only 31 cm (12") of diameter and a 3,5 Kg of weight. An average consumption less than 1 Amp/h at 12 V dc but featuring all the specification of the other Glomex SAT Tv antennas. The new electronics

gyroscopes allow a better stabilization of the antenna with more precision and speed. The new electric motors have better silent tracking. Urania can operate when the boat is at dock, in navigation or at the anchor. Its coaxial rotating joint doesn't need to wrap the coaxial cable, available at 12 V dc only with a compact control unit preloaded with 3 satellite. An Urania exclusivity is the possibility to update free the software when you want through the SD card (digital camera memory) on the control unit.

So a small antenna but great in its technology and performance!

New Glomex Portal-Website

To meet your needs, to **give a new boost emotional** of Glomex products, this year we have invested resources into the reclassification of our website, enriching information and complete technical specifications. The project will develop to become by next season, a real portal to serve the industry and boaters, because: **"Adult Toys Will Never End"**. Please visit the new graphics and new content

Visit us at
Mets Trade Show

**We will present the new 2010
products, always the Best in
Marine Antennas**

Radio waves at sea : communications and entertainment

The idea for this small book has been driven by the fact that most manuals about TLC in general and marine TLC in particular, are not easily read and understood by those who, interested in the topic, do not want to go beyond simple notions that allow them to understand the more important aspects of this matter. It is clear that this is oriented to a reader that does not wish to become an engineer or specialised technician; we will be brief and, above all, we will look to avoid complicated formulas. Connect to our new website **www.glomex.it** and download your FREE COPY.
