

GLOMEX AT BOOT DUSSELDORF FOR THE FIRST TIME

Glomex is very proud to take part of Boot Dusseldorf for the first time this year.

We decided to attend this amazing boat show as we consider it one of the most important boat shows in the world and an excellent opportunity to meet boaters from all over the world and show them all our 2020 new products:

Mizar AGC (code V9128AGC) makes your life easier and more comfortable with the innovative **automatic gain control amplifier**. Moreover, in order to keep a **balanced look** of your boat, Mizar AGC can be **matched to weBBoat 4G Lite**, the integrated internet antenna system, as they are identical in shape and size. Thanks to the amplifier you have only to turn on the TV, stay comfortably seated on the sofa and enjoy your favourite programs.

Compact Automatic Gain Control Omnidirectional DVB-T2 TV antenna
